ABOUT US

Streetwear is a distinctive style of street fashion.

Rooted in Anime and Gaming culture, it has grown to encompass elements of hip hop fashion, Japanese street fashion, and modern haute couture fashion. As with many grassroots cultural movements, streetwear has been notoriously difficult to define.

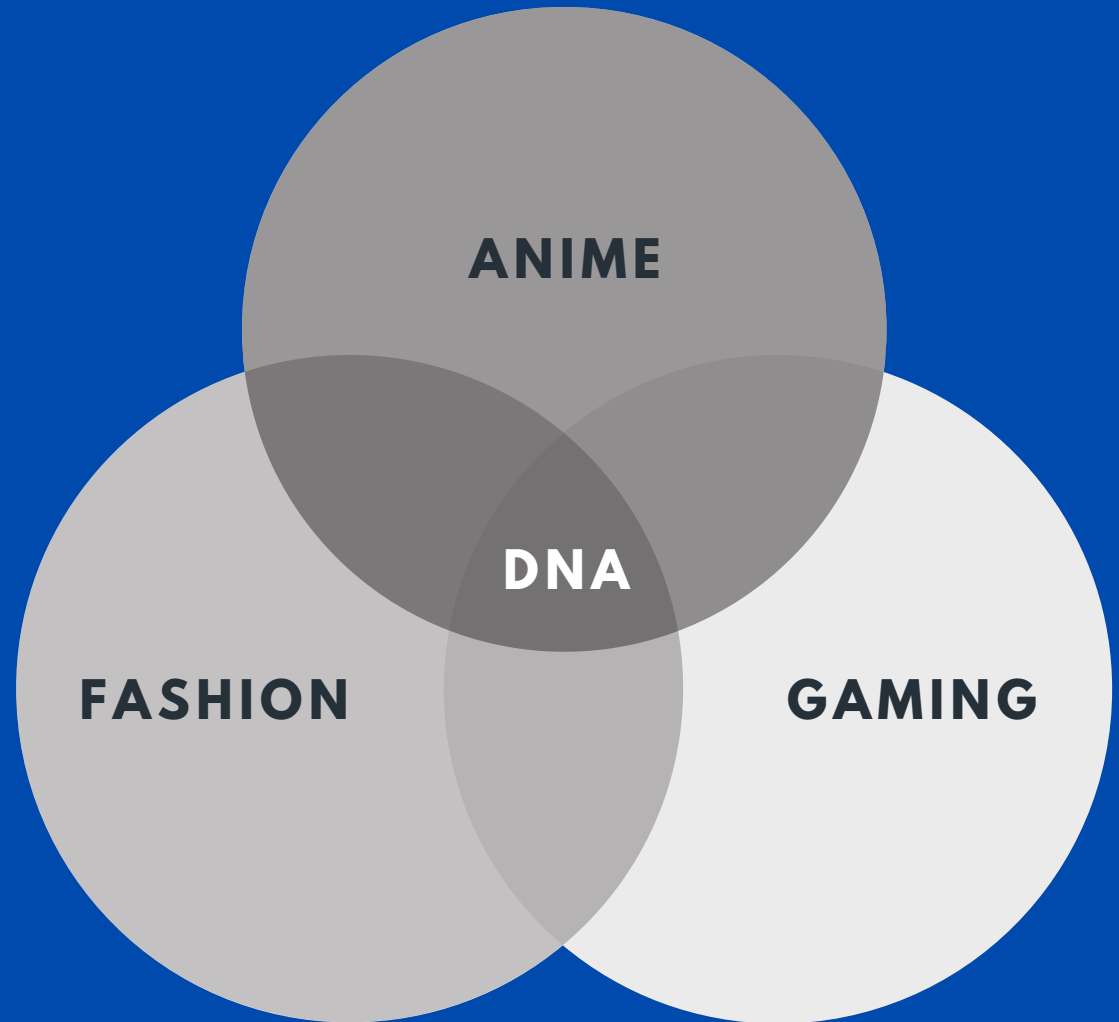

FOUNDATION

Under a constant state of evolution of style and creative direction (as with many street trends), one constant of streetwear has been the types of clothing produced, commonly centering on "casual, comfortable pieces such as jeans, t-shirts, baseball caps, and sneakers.
